About

Hey guys, I'm a workaholic iOS developer. I like to get my hands on interesting technologies which catalyses quality outcomes. I focus a lot on user experience and product efficiency.

Education

Diploma in Information Technology

June 2006 - August 2009

KNSK Polytechnic College, KK Dist, TN.

Experience

Junior iOS Developer, Cubicle Web Solutions

December 2015 - August 2016
Managed App Store. Worked on issues raised by testing team and business team. Responsible for unit test cases and UAT docs.

iOS Developer, GP Strategies

August 2016 - September 2019
Responsible for code health and efficiency. Managed legacy code base. Lead the mobile app team. Handling memory leaks.

iOS Lead, Ziffity Solutions

September 2019 - Present
Repo management. Code reviewing. Creating WBS for prospective projects. Managing release plan and pipeline. Responsible for code architecture.
